Campus Members Make Presentations

Jan. 8, 2014

Mark S. Filowitz, College of Natural Sciences and Mathematics, was among presenters at the December Council on Undergraduate Research’s STEM Education Caucus Briefing in Washington, D.C. Filowitz and Cheryl Carrera, interim dean of science, mathematics and health sciences at Santa Ana College, shared research findings on the demonstrated value of CSUF’s partnership with community colleges and the impact on STEM (science, technology, engineering and mathematics) student success at these institutions.

John Hickok, Pollak Library, presented a Nov. 25 workshop on online library resources for teaching English at the U.S. Consulate in Vietnam. The Consulate write-up, with photo of Hickok, is available online.
